Subject: Re: Pontchartrain Emergency Procedure

Good Evening John,

Thank you very much. Your assistance is appreciated and I can not commend Shane enough for the support he has provided that has been above and beyond the call of duty on our site.

These are not mere accolades: he has given us valuable insight to our many issues, made himself available to address our varied needs almost 24/7 and has now taken it upon himself to aid us yet again by training our staff in first responder/examiner procedures. Shane speaks volumes to me of the integrity of your company and I will forever have Western in my speed dial as I take on the challenges of new projects.

Shane has earned my respect as a construction professional and Western my continued business. Thank you for making a very wise investment in this individual.

On tomorrow, I will have the team assembled for training at Shane's availability.

--

Respectfully,
LaTina Johnson,
Construction Manager
